Teresa Understands Credit Unions!

Why hire someone who gives the same presentation to your credit union as they give to the corporation down the road? Credit unions are unique and face special challenges and opportunities! One of the world's top service experts, Teresa has worked with credit unions and leagues across the country for 30 years to raise the bar and set your credit union apart from the competition!

Formerly an Account Executive and National Trainer for Clarke American, Teresa called on 8 to 10 banks and credit unions a day for three years, covering a 14,000 square mile territory. Teresa now shares her bank and credit union experiences and observations with your staff; large credit unions, small credit unions, regional and national bank competitors, community bank competitors, large bank & credit union competitors, small community bank and credit union competitors; successful sales and service institutions as well as banks and credit unions with very weak sales and service efforts.

Teresa has molded her sales and service credit union training programs around her observations of what worked and what didn't work in the real world. Credit union staff members across the country express their appreciation for Teresa's understanding of their day-to-day environment!

Comments on Teresa's Credit Union Training Programs:

Teresa's presentation style was very personable and interactive. Our meetings start at 8:00a.m. and last all day. She kept everyone's attention throughout the day with her materials and also with her openness to the staff. She is very intuitive when it comes to dealing with people and used that to her advantage in her presentation style and also in her one-on-one dealings with staff members. Teresa also initiated role playing, games and quizzes which helped drive home the points she was making in each stage of her presentation. She shared personal stories of people in the service industry. Because these were actual examples, the staff could relate and apply these techniques in their daily interactions with members. Our goal is to "excel in service to our members". Teresa's presentation and materials helped each staff member provide Gold Service Standards and reacquainted them with their original enthusiasm at being a member of the credit union.

I wanted to thank you for the entertaining and informative presentations you held for our chapter. I've received nothing but praise from those who were present. Some said yours were the best seminars they've ever attended. Thank you for two incredibly enjoyable evenings!

Your session on service and cross-selling really helped us look at how we can continue to improve and focus on developing our relationships with our members. Our managers rated your session a 4.5 out of 5.0, which is absolutely outstanding!

Your session rated a 9.7 out of 10. This excellent evaluation, in addition to all of the positive comments we received, proved your member service presentation to be a success!

*Thank you for the wonderful presentation to our Management Team and Board on **Creating a Sales Culture**. You were a hit with our staff the following day in the **Member Conflict** seminar! I look forward to the day we can have you back to speak to us again.*
